DETAILED ACTION

1. Claims 1-15 are presented for examination.

Response to Arguments

2. In view of the Appeal Brief filed on 08/09/2005, PROSECUTION IS HEREBY REOPENED. A non-final Office Action is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Application/Control Number: 09/888,472 Page 3

Art Unit: 2154

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

- 4. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hobart [US Patent Application No 2002/0178255], in view of Blau [US Patent Application No 2004/0059644].
- 5. As per claim 1, Hobart discloses the invention substantially as claimed including a method of provide incentives for client machines to contribute resources to a peer-to-peer computer network [i.e. reward users in a peer-to-peer network for actively or passively contributing to resources] [Abstract; and paragraph 0013], the method comprising:

receiving requests for information from a plurality of client machines [i.e. request from peer] [Figure 6; paragraphs 0045 and 0047];

determining if the client machines are contributing resources to peer-to-peer sharing [i.e. incentive program whereby peers actively or passively participating are rewarded in correlation with predetermined parameters] [80-88, Figure 6; paragraphs 0013, 0047; and claims 1 and 2]; and

sending the requested information to the client machines [90, Figure 6; and paragraph 0047].

Hobart does not specifically disclose wherein priority is given to requests from clients which are contributing resources to peer-to-peer sharing.

Blau discloses wherein priority is given to requests from clients which are contributing resources to peer-to-peer sharing [i.e. promote and give priority to high bandwidth peer] [paragraphs 0012, 0039 and 0102].

It would have been obvious to a person skill in the art at the time the invention was made to combine the teaching of Hobart and Blau because Blau's teaching of priority would allow to providing services to important clients in a more organizing manner.

- 6. As per claim 2, Blau discloses giving higher priority in proportion to the level of resources contributed [i.e. a function of the upload and download capability] [paragraphs 0014 and 0039].
- 7. As per claim 3, Hobart discloses disk space, CPU resources, memory and specified number of connecting users [paragraphs 0032-0049]. Hobart does not specifically disclose bandwidth. Blau discloses bandwidth [Abstract; and paragraph 0011]. It would have been obvious to a person skill in the art at the time the invention was made to combine the teaching of Hobart and Blau because Blau's teaching of bandwidth would allow to optimize of the network peers resources utilization and maximize of the rewards to the user [Blau, paragraph 0011].
- 8. As per claim 4, it is rejected for similar reasons as stated above in claims 1 and 2.
- 9. As per claim 5, it is rejected for similar reasons as stated above in claim 3.

Art Unit: 2154

- 10. As per claim 6, it is rejected for similar reasons as stated above in claim 1.
- 11. As per claim 7, it is rejected for similar reasons as stated above in claim 2.
- 12. As per claim 8, it is rejected for similar reasons as stated above in claim 3.
- 13. As per claim 9, it is rejected for similar reasons as stated above in claims 1 and 2.
- 14. As per claim 10, it is rejected for similar reasons as stated above in claim 3.
- 15. As per claim 11, it is rejected for similar reasons as stated above in claim 1. Furthermore, Blau discloses a register which maintains a queue [paragraph 0014].
- 16. As per claim 12, it is rejected for similar reasons as stated above in claim 2.
- 17. As per claim 13, it is rejected for similar reasons as stated above in claim 3.
- 18. As per claims 14 and 15, they are rejected for similar reasons as stated above in claims 1-
- 3.

Art Unit: 2154

19 Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) days from the mail date of this letter. Failure to respond within the period for response will result in ABANDONMENT of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
